PART 1

GENERAL GOVERNMENT

NEW SECTION. Sec. 101. FOR THE JOINT LEGISLATIVE AUDIT AND REVIEW COMMITTEE

Capital Budget Studies (04-1-950)

The appropriations in this section are subject to the following conditions and limitations: The appropriations in this section are provided solely to refresh preservation information that resides in the state's comparable framework for higher education buildings (report 03-1) including any necessary revisions and/or adjustments that will enable more direct translation of information, updates for last renewal or replacement of major systems, and quality assurance field sampling. In executing this continued capital study, the joint legislative audit and review committee shall consult the office of financial management and the higher education coordinating board about its workplan to ensure timely delivery of assembled facilities information and related capital models in an easy to understand format. As a general condition upon appropriations provided to higher education agencies in this act, the state board for community and technical colleges and each state baccalaureate institution shall provide requested facilities information in a timely manner to enable the joint legislative audit and review committee to complete the above task and oversight so assigned.

30 Engineering and Architectural Services (06-2-012)

31 The appropriations in this section are subject to the following
32 conditions and limitations:

33 (1) The appropriations are provided solely for project management
34 services to state agencies as required by RCW 43.19.450 that are

1 essential and mandated activities defined as core services and are
 2 included in the engineering and architectural services'
 3 responsibilities and task list for general public works projects of
 4 normal complexity. The general public works projects included are all
 5 those financed by the state capital budget for the biennium ending June
 6 30, 2007, with individual total project values up to \$20,000,000.

7 (2) The community and technical capital projects account shall be
 8 used to provide services to six community and technical colleges
 9 projects that require separate reimbursable project management
 10 agreements.

11 (3) The department may negotiate agreements with agencies for
 12 additional fees to manage projects financed by financial contracts,
 13 other alternative financing, projects with a total value greater than
 14 \$20,000,000, or for the nonstate funded portion of projects with mixed
 15 funding sources.

16 (4) The department shall review each community and technical
 17 college request and the requests of other client agencies for funding
 18 any project over \$2,500,000 for inclusion in the 2006 supplemental
 19 capital budget and the 2007-09 capital budget to ensure that the amount
 20 requested by the agency is appropriate for predesign, design, and
 21 construction, depending on the phase of the project being requested.
 22 The department shall pay particular attention: (a) That the budgeted
 23 amount requested is at an appropriate level for the various components
 24 that make up the cost of the project such as project management; and
 25 (b) that standard measurements such as cost per square foot are
 26 reasonable. The department shall also assist the office of financial
 27 management with review of other agency projects as requested.

14 The appropriations in this section are subject to the following
15 conditions and limitations:

16 (1) \$179,000,000 is provided solely to design and construct a 1,280
17 bed medium-security prison at Coyote Ridge corrections center in
18 Connell.

19 (2) The facility shall be a publicly-owned and operated facility.

20 (3) The new facility shall include at least 512 hybrid-security
21 beds that have a lower cost to construct than conventional medium
22 security beds but still maintain a medium security perimeter.

23 (4) Design of the facility shall incorporate efficiencies in
24 administrative space and support services realized by sharing services
25 within the region. The department shall examine other states' and
26 private industry standard designs, and report on how efficiencies will
27 be incorporated into the design of the facility to the office of
28 financial management and to legislative fiscal staff not later than
29 September 1, 2005. Nothing in this subsection requires the department
30 to adopt design parameters that would endanger public safety or
31 generate increased operating costs.

32 (5) Once opened, a portion of the new facility shall be used to

14 Water Irrigation Efficiencies (01-H-010)

15 The reappropriations in this section are subject to the following
16 conditions and limitations:

17 (1) The reappropriations are provided solely to provide grants to
18 conservation districts to assist the agricultural community to
19 implement water conservation measures and irrigation efficiencies in
20 the 16 critical basins. A conservation district receiving funds shall
21 manage each grant to ensure that a portion of the water saved by the
22 water conservation measure or irrigation efficiency will be placed as
23 a purchase or a lease in the trust water rights program to enhance
24 instream flows. The proportion of saved water placed in the trust
25 water rights program must be equal to the percentage of the public
26 investment in the conservation measure or irrigation efficiency. The
27 percentage of the public investment may not exceed 85 percent of the
28 total cost of the conservation measure or irrigation efficiency. In
29 awarding grants, a conservation district shall give first priority to
30 family farms.

31 (2) \$344,000 of the water quality account reappropriation is
32 provided for water leases or projects in the Yakima river basin for
33 aquifer recharge necessary to allow the use of drought wells to meet
34 essential irrigation needs. Essential irrigation needs is defined as

1 eighty percent of the water a farmer would ordinarily receive from the
2 irrigation district, less the water that is actually delivered and
3 regardless of crops grown.

2 Water Supply Facilities (04-4-006)

3 The reappropriations in this section are subject to the following
4 conditions and limitations:

5 (1)(a) \$541,951 of the state building construction account
6 reappropriation and \$1,733,812 of the state and local improvements
7 revolving account reappropriation are provided solely for expenditure
8 under a contract between the department of ecology and the United
9 States bureau of reclamation for the development of plans, engineering,
10 and financing reports and other preconstruction activities associated
11 with the development of water storage projects in the Yakima river
12 basin, consistent with the Yakima river basin water enhancement
13 project, P.L. 103-434. It is the intent of the legislature that the
14 contract include provision for participation of the Yakama nation, on
15 a government-to-government basis, in the development of plans and other
16 preconstruction activities concerning salmon recovery and instream
17 flow. A portion of the reappropriation shall be expended to provide
18 for the participation of the Yakama nation. The initial water storage
19 feasibility study shall be for the Black Rock reservoir project. The
20 department shall seek federal funds to augment the funding provided by
21 this appropriation.

22 (b) Up to \$2,240,000 of the state building construction account--
23 state reappropriation is provided for phase 1 of restoration of
24 anadromous fish habitat in Manastash creek.

25 (c) The remainder of the state building construction account
26 reappropriation is provided solely for grants for the development of
27 plans, engineering and financing reports, acquiring land and
28 facilities, and other preconstruction activities associated with the
29 development of water storage and groundwater storage and recovery
30 projects. Proposed projects must be consistent with the
31 recommendations of the water storage task force and the governor's
32 water strategy. Priority for the use of these funds must be given to:
33 Projects that have been identified for early action through watershed
34 plans, comprehensive irrigation district management plans, or similar
35 plans; to projects that are part of an approved habitat conservation
36 plan or other intergovernmental agreement; or to joint projects with
37 federal entities such as the bureau of reclamation. The department
38 shall develop and administer this grants program in conjunction with

1 the departments of agriculture and fish and wildlife. Decisions
2 regarding which projects are funded must be by unanimous agreement of
3 all three departments. The department shall seek local and federal
4 funds to augment the funding provided by this reappropriation.

5 (2) In addition to the annual project progress reporting
6 requirement of RCW 43.88.160(3), the department shall file quarterly
7 project progress reports with the office of financial management.

12 watershed improvement district to address unpermitted water use and
13 environmental compliance and fund early action planning, feasibility
14 studies, and construction of early action projects.

15 (3) \$1,600,000 of the state building construction account--state
16 appropriation is provided solely for the Middle Fork Nooksack river
17 water diversion system.

18 (4) First priority from the remaining appropriation, \$1,475,000
19 from the state and local improvements revolving account--state
20 appropriation, \$350,000 from the state building construction account--
21 state appropriation, and the water quality account--state
22 appropriation, shall be the following projects: Piping in the upper
23 Yakima river; piping for Bull canal; piping for the Lowden number 2
24 ditch; diversion reconstruction and piping in Beaver creek; conjunctive
25 use of surface and ground water in the Chewuch river; replacing surface
26 diversions with wells and consolidation of diversions in the Entiat
27 river; replacing a check dam with a siphon on Little Naneum creek;
28 consolidate diversions on Simcoe creek; and ground water recharge of
29 reclaimed water on Kitsap peninsula. The purpose of this funding is to
30 develop projects and take other water management actions that benefit
31 streamflows and enhance water supply to resolve conflicts among water
32 needs for municipal water supply, agricultural water supply, and fish
33 restoration. The streamflow or other public benefits secured from
34 these projects should be commensurate with the investment of state
35 funds.

36 (5) \$50,000 of the state building construction account--state
37 reappropriation is provided solely for Ahtanum creek watershed
38 restoration and Pine Hollow reservoir provided there is agreement among

1 the Yakama nation, Ahtanum irrigation district, and other
2 jurisdictional federal, state, and local agencies and entities to
3 proceed with the environmental impact statement.

15 The appropriations in this section are subject to the following
16 conditions and limitations:

17 (1) Up to \$10,000,000 of the state building construction account--
18 state appropriation is provided for the extended grant payment to
19 Spokane for the Spokane-Rathdrum Prairie aquifer.

20 (2) \$5,000,000 of the state building construction account--state
21 appropriation is provided solely for water quality grants for hardship
22 communities with a population of less than 5,000. The department shall
23 give priority consideration to: (a) Communities subject to a
24 regulatory order from the department of ecology for noncompliance with
25 water quality rules; (b) projects for which design work has been
26 completed; and (c) projects with a local match from reasonable water
27 quality rates and charges.

28 (3) \$1,000,000 of the state building construction account--state
29 appropriation is provided solely to design appropriate wastewater
30 treatment facilities to serve the Hoodspout to Skokomish reservation
31 areas of Hood Canal. The exact facilities will be based upon the
32 recommendations from an analysis of wastewater management options for
33 the Hoodspout to Skokomish river currently being undertaken by Mason
34 county.

35 (4) \$750,000 of the state building construction account--state

1 up activities at Long Lake in Kitsap county and \$50,000 of the state
2 building construction account--state appropriation is provided solely
3 for assistance in cleaning up Wapato Lake in Pierce county. The
4 assistance is contingent on the lake communities adopting a lake
5 management plan that meets the department's requirement.

6 (5) \$320,000 of the water quality account--state appropriation is
7 provided solely to Mason county to develop a septic system data base
8 and identify failing septic systems in Hood Canal.

9 (6) \$70,000 of the water quality account--state appropriation is
10 provided solely to Kitsap county for surveys of septic systems in Hood
11 Canal.

12 (7) \$70,000 of the water quality account--state appropriation is
13 provided solely to Jefferson county for surveys of septic systems in
14 Hood Canal.

15 (8) The remaining appropriation in this section is provided for
16 statewide water quality implementation and planning grants and loans.

17 Appropriation:

18	State Building Construction Account--State	\$20,000,000
19	Water Quality Account--State	\$7,500,000
20	State Toxics Control Account--State	\$10,500,000
21	Subtotal Appropriation	\$38,000,000

25 NEW SECTION. **Sec. 324. FOR THE DEPARTMENT OF ECOLOGY**

26 State Drought Preparedness (05-4-009)

27 The reappropriation in this section is subject to the following
28 conditions and limitations:

29 (1) The reappropriation in this section is provided solely for
30 response to the statewide drought that was declared pursuant to chapter
31 43.83B RCW. The department of ecology may provide funding or
32 compensation for purchase or lease of water rights and to public bodies
33 as defined in RCW 43.83B.050 in connection with projects and measures
34 designed to alleviate drought conditions which may affect: Public
35 health and safety; drinking water supplies; agricultural activities; or
36 fish and wildlife survival.

1 (2) Projects or measures for which funding or compensation will be
 2 provided must be connected with a water system, water source, or water
 3 body which is receiving, or has been projected to receive, less than
 4 seventy-five percent of normal water supply, as the result of natural
 5 drought conditions. This reduction in water supply must be such that
 6 it is causing, or will cause, undue hardship for the entities or fish
 7 or wildlife depending on the water supply. General criteria for
 8 guidelines to be established by the department of ecology for
 9 distribution of funds must include: A balanced and equitable
 10 distribution of the funds among the different sectors affected by
 11 drought; a funding process that ensures funds are available for drought
 12 impacts that arise both early and later during the course of the
 13 drought; and preference for projects that leverage other federal and
 14 local funds.

15 (3) Up to \$1,500,000 of the reappropriation in this section is
 16 provided to the Roza irrigation district for the purchase or lease of
 17 water rights.

18 Reappropriation:

19	State Drought Preparedness Account--State	\$8,200,000
20	Prior Biennia (Expenditures)	\$0
21	Future Biennia (Projected Costs)	\$0
22	TOTAL	\$8,200,000

23 NEW SECTION. **Sec. 325. FOR THE DEPARTMENT OF ECOLOGY**

24 Local Toxics Grants for Cleanup and Prevention (06-4-008)

25 The appropriation in this section is subject to the following
 26 conditions and limitations:

27 (1) \$4,000,000 of the appropriation is provided solely for grants
 28 to local governments for local projects that implement the state "never
 29 waste" plan. Grant funds will emphasize additional organics composting
 30 and conversion, green building, and moderate risk waste projects
 31 described in the plan. Of this amount, up to \$1,600,000 may be used
 32 for one-time funding for auto switch recycling consistent with the
 33 memorandum of agreement being finalized with the auto recyclers
 34 association.

35 (2) \$2,000,000 of the appropriation is provided for emission
 36 reduction projects for local governments to retrofit public sector

1 diesel engines with exhaust emission control devices or to make other
2 modifications or operational changes, including cleaner fuels, to allow
3 public sector fleets to reduce their emissions.

4 (3) \$3,000,000 of the appropriation is provided solely for grants
5 to local governments needing assistance in complying with the new phase
6 II storm water permit requirements. Of this amount, \$300,000 is
7 provided solely for Mason county to prepare storm water management
8 plans for Belfair and Hoodspert consistent with the storm water program
9 in the Puget Sound conservation and recovery plan.

10 (4) \$60,000,000 of the appropriation is provided solely for
11 remedial action grants. Of this amount, \$1,000,000 is provided to the
12 town of Warden to respond to contamination of their existing water
13 system.

14 (5) From within this appropriation, the department shall prepare an
15 online guide to help small businesses and homeowners learn what to do
16 if they discover toxic wastes on their property. The guide shall
17 provide information about local resources for clean up and disposal of
18 toxic wastes.

19 Appropriation:

20	Local Toxics Control Account--State	\$80,000,000
21	Prior Biennia (Expenditures)	\$45,000,000
22	Future Biennia (Projected Costs)	\$180,000,000

10	TOTAL	\$17,500,000

11 **NEW SECTION. Sec. 329. FOR THE DEPARTMENT OF ECOLOGY**

12 Water Pollution Control Revolving Account (06-4-002)

13 The appropriations in this section are subject to the following
14 conditions and limitations: The department shall give priority loan
15 funding consideration to on-site septic system rehabilitation and
16 replacement programs in Mason, Kitsap, and Jefferson counties for at
17 least \$1,000,000 from the water pollution control revolving account--
18 state in the second year of the funding cycle.

19 Appropriation:

20	Water Pollution Control Revolving	
21	Account--State	\$162,839,146
22	Water Pollution Control Revolving	
23	Account--Federal	\$76,777,140

28 **NEW SECTION. Sec. 330. FOR THE DEPARTMENT OF ECOLOGY**

29 Watershed Plan Implementation and Flow Achievement (06-2-003)

30 The appropriation in this section is subject to the following
31 conditions and limitations: \$12,000,000 of the appropriation is
32 provided solely for projects and water right acquisitions to support

1 watershed planning efforts and achieving instream flows subject to the
2 following project types, conditions, and limitations:

3 (1) Up to \$1,353,172 of the appropriation is provided to improve
4 irrigation efficiency and to achieve associated flow improvements in
5 the Twisp and Methow rivers by providing for cleaning and lining and/or
6 piping of 30,943 linear feet of the irrigation canal within the lower
7 (downstream) seven miles of the Methow Valley irrigation district's
8 west canal. Of this amount, up to \$100,000 is provided for a neutral
9 independent consultant to provide management assistance to the Methow
10 Valley irrigation district for purposes of identifying structural and
11 operational improvements to increase overall system water use
12 efficiency.

13 (2) Up to \$200,000 of the appropriation is provided for a portion
14 of the costs of the project level environmental impact statement for
15 the Ahtanum creek watershed restoration program, including construction
16 of the Pine Hollow reservoir, provided there is agreement among the
17 Yakama nation, Ahtanum irrigation district, and other jurisdictional
18 federal, state, and local agencies and entities to proceed with the
19 environmental impact statement.

20 (3) Up to \$75,000 of the appropriation is provided to formalize the
21 Ahtanum creek watershed restoration program, including identification
22 of site specific habitat improvement projects and determination of the
23 most appropriate restoration program alternative to implement.

24 (4) Up to \$1,500,000 of the appropriation is provided to reduce
25 diversions from the Dungeness river through pipeline projects
26 identified in the Dungeness river comprehensive irrigation district
27 management plan. For at least one year from the effective date of this
28 section, while the parties seek resolution of the court action filed in
29 Thurston county superior court, No. 04-2-00078-2, none of these funds
30 may be allocated to any projects in the Dungeness river basin that are
31 within the area that is the zone of contribution for ground and surface
32 water infiltration to the existing Graysmarsh wetland.

33 (5) \$100,000 of the appropriation is provided solely to the city of
34 Normandy Park to implement the basin plan for the Miller/Walker and
35 Salmon creek basins.

36 (6) Water storage grants for the development of plans, engineering
37 and financing reports, acquiring lands and facilities, and other
38 preconstruction activities associated with the development of water

1 storage and groundwater storage and recovery projects. Proposed
2 projects should be consistent with the recommendations of the water
3 storage task force. The department of ecology would issue grants in
4 consultation with the departments of agriculture and fish and wildlife.

5 (7) Infrastructure improvement projects and other water management
6 actions that benefit stream flows and enhance water supply to resolve
7 conflicts among water needs for municipal water supply, agriculture
8 water supply, and fish restoration. The stream flow improvements and
9 other public benefits secured from these projects should be
10 commensurate with the investment of state funds.

11 (8) Projects for planning, acquisition, construction, and
12 improvement of agriculture water supply facilities and achieving water
13 conservation and water use efficiency improvements.

14 (9) Financial assistance to purchase and install water measuring
15 devices at points of diversion and withdrawal. Preference would be
16 given to fish-critical basins, to areas participating in the department
17 of fish and wildlife fish screening and cooperative compliance
18 programs, and to basins where watershed planning has determined
19 additional water diversion and withdrawal information is needed.

20 (10) Funding for acquisition of either water or water rights, or
21 both, for instream flow achievement and establishment of water
22 accounts. The appropriation is provided for either the purchase or
23 lease, or both, of water rights. It is also provided for the purpose
24 of improving stream and river flows in fish critical basins under the
25 trust water rights program under chapters 90.42 and 90.38 RCW.

26 (11) The department shall provide small grants to watershed
27 councils that have completed watershed plans. The grants are intended
28 to support periodic meetings of the councils so that they can monitor
29 the implementation of watershed plans.

14 to off-mainstem storage projects and impacts of changing operations at
15 the Potholes reservoir, and grant funding for the purchase and
16 installation of water measuring devices.

17 (2) Of the amount appropriated in this section, \$10,000,000 may not
18 be expended prior to enactment of state legislation that establishes
19 the policy requirements for a new water resources and water rights
20 management program for the Columbia river mainstem. If such
21 legislation is not enacted prior to June 30, 2006, this amount shall
22 lapse.

27 Washington Wildlife and Recreation Program (WWRP) (06-4-002)

28 The appropriations in this section are subject to the following
29 conditions and limitations:

30 (1) The appropriation is provided for the approved list of projects
31 in LEAP capital document No. 2005-14 as developed on April 9, 2005.

32 (2) Funds appropriated for distribution according to RCW 79A.15.050
33 shall fulfill the uses and restrictions of each category whether the
34 funds are distributed according to the statutory allotment, the

1 unallocated distribution, or a reassignment of reappropriations. If
2 the cumulative total for acquisition projects is less than the
3 statutory requirement, the difference may be allocated to the remaining
4 development projects.

5 (3) Funds appropriated for distribution according to the provisions
6 of RCW 79A.15.040(c) shall be allocated forty percent to local
7 government projects and sixty percent to state agency projects. If the
8 cumulative total of local government projects is less than forty
9 percent of the total distribution to this category, the difference may
10 be allocated to state agency projects.

20 Consolidate Salmon and Watershed Data - Pilot (06-2-950)

21 The appropriation in this section is subject to the following
22 conditions and limitations:

23 The appropriation is provided solely for the conservation
24 commission to test the effectiveness of using a web-based, single
25 repository with mapping capabilities to track, manage, and report at
26 local, regional, and statewide bases all habitat projects developed by
27 the conservation districts and to test the effectiveness of a single
28 repository for habitat data collected in a selected watershed through
29 use of hand-held data collection devices by the departments of ecology,
30 natural resources, and fish and wildlife.

31 The commission shall be assisted by the department of information
32 services and the governor's salmon recovery office in contracting with
33 a qualified private vendor through an open bid process to provide the
34 pilot program. In conjunction, the commission will work with the
35 departments of ecology, fish and wildlife, and natural resources to

1 select a watershed in western Washington, in which to demonstrate the
2 effectiveness of the data repository system.

3 The commission will collaborate with the natural resources
4 agencies, the department of information services, and the governor's
5 salmon recovery office and submit a joint report with recommendations
6 to the legislature and the office of financial management by December
7 1, 2006.

22 **NEW SECTION. Sec. 454. FOR THE DEPARTMENT OF NATURAL RESOURCES**

23 Trust Land Transfer (06-2-012)

24 The appropriations in this section are subject to the following
25 conditions and limitations:

26 (1) The total appropriation is provided to the department solely to
27 transfer from trust status or enter into thirty-year timber harvest
28 restrictive easements/leases for certain trust lands of statewide
29 significance deemed appropriate for state park, fish and wildlife
30 habitat, natural area preserve, natural resources conservation area,
31 open space, or recreation purposes.

32 (2) Property transferred under this section shall be appraised and
33 transferred at fair market value. The value of the timber transferred

1 shall be deposited by the department to the common school construction
2 account in the same manner as timber revenues from other common school
3 trust lands. No deduction shall be made for the resource management
4 cost account under RCW 79.64.040. The value of the land transferred
5 shall be deposited in the natural resources real property replacement
6 account. These funds shall be expended by the department for the
7 exclusive purpose of acquiring nonagricultural real property of equal
8 value to be managed as common school trust land.

9 (3) Except as provided under subsection (11) of this section,
10 property subject to easement/lease agreements under this section shall
11 be appraised at fair market value both with and without the imposition
12 of the easement/lease. The entire difference in appraised value shall
13 be deposited by the department to the common school construction fund
14 in the same manner as lease revenues from other common school trust
15 lands. No deduction shall be made for the resource management cost
16 account under RCW 79.64.040.

17 (4) All reasonable costs incurred by the department to implement
18 this section are authorized to be paid out of the appropriations.
19 Authorized costs include the actual cost of appraisals, staff time,
20 environmental reviews, surveys, and other similar costs.

21 (5) Intergrant exchanges between common school and other trust
22 lands of equal value may occur if the exchange is in the interest of
23 each trust, as determined by the board of natural resources.

24 (6) Prior to or concurrent with conveyance of these properties, the
25 department, with full cooperation of the receiving agencies, shall
26 execute and record a real property instrument that dedicates the
27 transferred properties to the purposes identified in subsection (1) of
28 this section for a minimum period of thirty years. The department, in
29 consultation with the receiving state agencies, shall develop policy to
30 address requests to replace transferred properties subject to the
31 recorded property instrument that are no longer deemed appropriate for
32 the purposes identified in subsection (1) of this section.

33 (7) The department and receiving agencies shall work in good faith
34 to carry out the intent of this section. However, the department or
35 receiving agencies may remove a property from the transfer list based
36 on new, substantive information, if it is determined that transfer of
37 the property is not in the statewide interest of either the common
38 school trust or the receiving agency.

1 (8) Except as provided in subsection (11) of this section, the
2 department shall execute trust land transfers and easements/leases such
3 that, after the deduction of reasonable costs as provided in subsection
4 (4) of this section, eighty percent of the appropriation in this
5 section is deposited in the common school construction fund. To
6 achieve the 80:20 ratio, the department may offset transfers of
7 property with low timber-to-land ratios with easements/leases on other
8 properties.

9 (9) On June 30, 2007, the state treasurer shall transfer all
10 remaining uncommitted funds from this appropriation to the common
11 school construction fund and the appropriations in this section shall
12 be reduced by an equivalent amount.

13 (10) The appropriations in this section are provided for a list of
14 projects in LEAP capital document No. 2005-17, as developed on April
15 16, 2005.

16 (11) The department may, after the deduction of reasonable costs as
17 provided in subsection (4) of this section, execute leases for an
18 initial term not to exceed fifty years, for Smugglers Cove, Cultus Bay,
19 and Strawberry Point. Leases executed under this subsection may be
20 renewed for an additional thirty-year period, under terms and
21 conditions established by the department, including revaluation. Trust
22 land transfer leases under this subsection shall not be subject to the
23 80:20 ratio of timber value to land value required in subsection (8) of
24 this section. Revenues derived from leases under this subsection shall
25 be deposited in the appropriate account as provided by law.

2 Preventive Facility Maintenance and Building System Repairs
3 (06-1-750)

4 The appropriation in this section is subject to the following
5 conditions and limitations:

6 (1) Pursuant to definitions and provisions in section 925, chapter
7 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to
8 maintain facilities housing educational and general programs and to
9 maintain its major building systems and campus infrastructure.
10 Building maintenance, mechanical adjustments, repairs, and minor works
11 for the facility or its major building systems and campus
12 infrastructure must extend the remaining useful life of the facility or
13 keep it safe and functioning normally.

14 (2) With this appropriation, the intent is to improve the average
15 condition of state facilities as compared to the baseline conditions
16 documented in report 03-1 of the joint legislative audit and review
17 committee. Preventive facility maintenance project funds shall be
18 allocated at local discretion to achieve the above stated performance
19 goal, with particular attention given to buildings currently rated in
20 superior to adequate condition so as to maximize useful life given both
21 the passage of time and intensity with which the space is used.

27 Preventive Facility Maintenance and Building System Repairs
28 (06-1-750)

29 The appropriation in this section is subject to the following
30 conditions and limitations:

31 (1) Pursuant to definitions and provisions in section 925, chapter
32 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to
33 maintain facilities housing educational and general programs and to

1 maintain its major building systems and campus infrastructure.
2 Building maintenance, mechanical adjustments, repairs, and minor works
3 for the facility or its major building systems and campus
4 infrastructure must extend the remaining useful life of the facility or
5 keep it safe and functioning normally.

6 (2) With this appropriation, the intent is to improve the average
7 condition of state facilities as compared to the baseline conditions
8 documented in report 03-1 of the joint legislative audit and review
9 committee. Preventive facility maintenance project funds shall be
10 allocated at local discretion to achieve the above stated performance
11 goal, with particular attention given to buildings currently rated in
12 superior to adequate condition so as to maximize useful life given both
13 the passage of time and intensity with which the space is used.

14 (3) Section 906 of this act does not apply to this appropriation.

15 (4) There is no intent to reappropriate amounts not expended by
16 June 30, 2007.

3 Preventive Facility Maintenance and Building System Repairs
4 (06-1-750)

5 The appropriation in this section is subject to the following
6 conditions and limitations:

7 (1) Pursuant to definitions and provisions in section 925, chapter
8 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to
9 maintain facilities housing educational and general programs and to
10 maintain its major building systems and campus infrastructure.
11 Building maintenance, mechanical adjustments, repairs, and minor works
12 for the facility or its major building systems and campus
13 infrastructure must extend the remaining useful life of the facility or
14 keep it safe and functioning normally.

15 (2) With this appropriation, the intent is to improve the average
16 condition of state facilities as compared to the baseline conditions
17 documented in report 03-1 of the joint legislative audit and review
18 committee. Preventive facility maintenance project funds shall be
19 allocated at local discretion to achieve the above stated performance
20 goal, with particular attention given to buildings currently rated in
21 superior to adequate condition so as to maximize useful life given both
22 the passage of time and intensity with which the space is used.

23 (3) Section 906 of this act does not apply to this appropriation.

24 (4) There is no intent to reappropriate amounts not expended by
25 June 30, 2007.

20 Prevention and Intervention Study to Stabilize Inmate Population
21 (06-2-952)

22 The appropriation in this section is subject to the following
23 conditions and limitations: The appropriation is provided solely for
24 the Washington state institute for public policy to study options to
25 stabilize future prison population. The legislature intends to examine
26 options that could stabilize the adult inmate population growth at the
27 projected 2007 level in order to avoid construction of major prison
28 facilities after construction of the Coyote Ridge correctional center.
29 To do this, the legislature finds that sentencing options need to be
30 examined in conjunction with prevention and intervention programs. The
31 legislature finds that existing and current research underway by the
32 Washington state institute for public policy can be synthesized to
33 develop these options, in conjunction with sentencing options that will
34 be developed by the sentencing guidelines commission. The Washington

1 state institute for public policy shall build on the study required by
 2 chapter . . . (Engrossed Substitute Senate Bill No. 5763 (mental
 3 disorders treatment)), Laws of 2005, and study the net short-run and
 4 long-run fiscal savings to state and local governments of implementing
 5 evidence-based treatment human service and corrections programs and
 6 policies, including prevention and intervention programs, sentencing
 7 alternatives, and the use of risk factors in sentencing. The institute
 8 shall use the results from its 2004 report on cost-beneficial
 9 prevention and early intervention programs and its work on effective
 10 adult corrections programs to project total fiscal impacts under
 11 alternative implementation scenarios. The institute shall provide an
 12 interim report to the appropriate committees of the legislature by
 13 January 1, 2006, and a final report by October 1, 2006.

21 Schools for the Deaf and Blind Comparative Study (06-2-951)

22 The appropriation in this section is subject to the following
 23 conditions and limitations: \$50,000 is provided solely for the
 24 Washington state institute for public policy to conduct a study of
 25 governance, financing, and service delivery at the state school for the
 26 deaf and the state school for the blind. The study shall compare the
 27 costs, operations, and educational approach of the two schools,
 28 including differences in the cultural and educational needs of the
 29 populations served; the extent of collaboration with public schools;
 30 and alignment between current and future service delivery, current
 31 capital facilities, and the schools' ten-year capital plans. The study
 32 shall also include a comparison to services provided in public schools;
 33 recommend how the schools could configure service delivery to
 34 complement and support school district programs; and examine which
 35 state agency should have responsibility for governance and oversight of
 36 the schools. To reduce duplication, the institute may update studies

1 of the state school for the deaf conducted in 2002. The institute
2 shall submit the comparative study to the appropriate policy and fiscal
3 committees of the legislature by December 1, 2005.

12 Campus Roadway Development (04-2-073)

13 The reappropriation in this section is subject to the following
 14 conditions and limitations:

15 (1) The purpose of the reappropriation is to complete a predesign
 16 of potential south campus roadway options and general circulation
 17 issues that avoids significant impacts on adjacent neighborhoods and
 18 conforms to the city of Bellingham traffic plans.

19 (2) The predesign shall also investigate options to achieve higher
 20 rates of alternative modes of transportation among faculty, staff, and
 21 students, minimize surface parking, and make improvements for traffic
 22 circulation, including public transit. Safe movement of pedestrians
 23 and bicyclists shall be a priority.

24 (3) Allotment for predesign is contingent upon the completion of a
 25 communication and public involvement plan for this project that is
 26 consistent with the significant projects section of the Western
 27 Washington University institutional master plan and adjacent
 28 neighborhood plans adopted by the city of Bellingham, the city of
 29 Bellingham Western Washington University neighborhood plan, and the
 30 neighborhood meeting requirements contained in Bellingham municipal
 31 code 20.40.060. The communication and public involvement plan shall
 32 seek to maximize public input through coordination of the planning
 33 effort with established neighborhood advisory groups and boards
 34 recognized by the city of Bellingham.

9 conditions and limitations:

10 (1) Pursuant to definitions and provisions in section 925, chapter
11 26, Laws of 2003 1st sp. sess., the reappropriation is provided solely
12 to accomplish preservation work that improves existing state facilities
13 in the worst relative condition for housed programs and current
14 building occupants.

15 (2) With this reappropriation, the intent is to improve the average
16 condition of state facilities as compared to the baseline conditions
17 documented in report 03-1 of the joint legislative audit and review
18 committee. Preservation backlog reduction project funds shall be
19 prioritized at local discretion to achieve the above stated goal, with
20 particular attention given to buildings currently rated in adequate to

5 Facility Preservation Backlog Reduction (04-1-951)

6 The reappropriation in this section is subject to the following
 7 conditions and limitations:

8 (1) Pursuant to definitions and provisions in section 925, chapter
 9 26, Laws of 2003 1st sp. sess., the reappropriation is provided solely
 10 to accomplish preservation work that improves existing state facilities
 11 in the worst relative condition for housed programs and current
 12 building occupants.

13 (2) With this reappropriation, the intent is to improve the average
 14 condition of state facilities as compared to the baseline conditions
 15 documented in report 03-1 of the joint legislative audit and review
 16 committee. Preservation backlog reduction project funds shall be
 17 prioritized at local discretion to achieve the above stated goal, with
 18 particular attention given to buildings currently rated in adequate to
 19 marginal condition.

20 (3) This section is subject to the same allotment procedures as a
 21 minor works category.

22 (4) Section 906 of this act does not apply to this reappropriation.

24 Preventive Facility Maintenance and Building System Repairs

25 (06-1-750)

26 The appropriation in this section is subject to the following

27 conditions and limitations:

28 (1) Pursuant to definitions and provisions in section 925, chapter

29 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to

30 maintain facilities housing educational and general programs and to

31 maintain its major building systems and campus infrastructure.

32 Building maintenance, mechanical adjustments, repairs, and minor works

33 for the facility or its major building systems and campus

1 infrastructure must extend the remaining useful life of the facility or
2 keep it safe and functioning normally.

3 (2) With this appropriation, the intent is to improve the average
4 condition of state facilities as compared to the baseline conditions
5 documented in report 03-1 of the joint legislative audit and review
6 committee. Preventive facility maintenance project funds shall be
7 allocated at the state board's discretion to achieve the above stated
8 performance goal, with particular attention given to buildings
9 currently rated in superior to adequate condition so as to maximize
10 useful life given both the passage of time and intensity with which the
11 space is used.

12 (3) Section 906 of this act does not apply to this appropriation.

13 (4) There is no intent to reappropriate amounts not expended by
14 June 30, 2007.

5 (1) The appropriation in this section is provided solely for
6 predesign and design funding of a colocated one-stop office on the
7 North Seattle Community College campus with the employment security
8 department, the department of social and health services, and
9 WorkSource partnering agencies. The facility will provide integrated
10 services to offer direct opportunities for skill improvement and to
11 enhance employment outcomes of Washington state citizens.

12 (2) Prior to allotment for design, the state board for community
13 and technical colleges shall submit a predesign document to the office
14 of financial management and legislative fiscal committees identifying
15 and outlining the project, scope, schedule, and preliminary cost
16 estimates anticipated for the building, including identification of a
17 revenue stream sufficient to pay future debt service costs on a

2 **MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS**

3 MISCELLANEOUS PROVISIONS

4 NEW SECTION. **Sec. 901.** The estimated debt service costs impacting
5 future general fund expenditures related solely to new capital
6 appropriations within this act are \$19,503,912 during the 2005-2007
7 fiscal period; \$128,151,322 during the 2007-2009 fiscal period;
8 \$200,451,220 during the 2009-2011 fiscal period; \$207,686,311 during
9 the 2011-2013 fiscal period; and \$210,558,739 during the 2013-2015
10 period.

11 NEW SECTION. **Sec. 902.** (1) Allotments for appropriations in this
12 act shall be provided in accordance with the capital project review
13 requirements adopted by the office of financial management. The office
14 of financial management shall notify the house of representatives
15 capital budget committee and the senate ways and means committee of
16 allotment releases based on review by the office of financial
17 management. No expenditure may be incurred or obligation entered into
18 for appropriations in this act until the office of financial management
19 has given final approval to the allotment of the funds to be expended
20 or encumbered. For allotments under this act, the allotment process
21 includes, in addition to the statement of proposed expenditures for the
22 current biennium, a category or categories for any reserve amounts and
23 amounts expected to be expended in future biennia. Projects that will
24 be employing alternative public works construction procedures under
25 chapter 39.10 RCW are subject to the allotment procedures defined in
26 this section and RCW 43.88.110. Contracts shall not be executed that
27 call for expenditures in excess of the approved allotment, and the
28 total amount shown in such contracts for the cost of future work that
29 has not been appropriated shall not exceed the amount identified for
30 such work in the level of funding approved by the office of financial
31 management at the completion of predesign.

32 (2) The legislature intends that each project be defined as
33 proposed to the legislature in the governor's budget document, unless

1 it clearly appears from the legislative history that the legislature
2 intended to define the scope of a project in a different way.

3 NEW SECTION. **Sec. 903.** To ensure that major construction projects
4 are carried out in accordance with legislative and executive intent,
5 appropriations in this act in excess of \$5,000,000 shall not be
6 expended or encumbered until the office of financial management has
7 reviewed and approved the agency's predesign and other documents, and
8 approved an allotment for the project that includes specific
9 authorization to enter into a contract to expend or encumber funds.
10 The predesign document shall include but not be limited to program,
11 site, and cost analysis in accordance with the predesign manual adopted
12 by the office of financial management. To improve monitoring of major
13 construction projects, progress reports shall be submitted by the
14 agency administering the project to the office of financial management
15 and to the fiscal committees of the house of representatives and
16 senate. Reports will be submitted on July 1st and December 31st each
17 year in a format to be developed by the office of financial management.

18 NEW SECTION. **Sec. 904.** Appropriations in this act for design and
19 construction of facilities on higher education campuses shall be
20 expended only after funds are allotted to institutions of higher
21 education on the basis of: (1) Comparable unit cost standards, as
22 determined by the office of financial management in consultation with
23 the higher education coordinating board; (2) costs consistent with
24 other higher education teaching facilities in the state; and (3)
25 student full-time equivalent enrollment levels as established by the
26 office of financial management in consultation with the higher
27 education coordinating board.

28 NEW SECTION. **Sec. 905.** (1) To ensure that minor works
29 appropriations are carried out in accordance with legislative intent,
30 funds appropriated in this act shall not be allotted until project
31 lists are on file at the office of financial management and the office
32 of financial management has formally approved the lists. Proposed
33 revisions to the lists must be filed with and approved by the office of
34 financial management before funds may be expended on the revisions.

1 (2)(a) Minor works projects are single line appropriations that
2 include multiple projects valued between \$25,000 and \$1,000,000 each
3 that are of a similar nature and can generally be completed within two
4 years of the appropriation with the funding provided. Minor works
5 categories include (i) health, safety, and code requirements; (ii)
6 facility preservation; (iii) infrastructure preservation; and (iv)
7 program improvement or expansion. Improvements for accessibility in
8 compliance with the Americans with disabilities act may be included in
9 any of the above minor works categories.

10 (b) Minor works appropriations shall not be used for, among other
11 things: Studies, except for technical or engineering reviews or
12 designs that lead directly to and support a project on the same minor
13 works list; planning; design outside the scope of work on a minor works
14 list; moveable, temporary, and traditionally funded operating equipment
15 not in compliance with the equipment criteria established by the office
16 of financial management; software not dedicated to control of a
17 specialized system; moving expenses; land or facility acquisition; or
18 to supplement funding for projects with funding shortfalls unless
19 expressly authorized elsewhere in this act. The office of financial
20 management may make an exception to the limitations described in this
21 subsection (2)(b) for exigent circumstances after notifying the
22 legislative fiscal committees and waiting ten days for comments by the
23 legislature regarding the proposed exception.

24 (3) The office of financial management shall forward copies of
25 these project lists and revised lists to the house of representatives
26 capital budget committee and the senate ways and means committee. No
27 expenditure may be incurred or obligation entered into for minor works
28 appropriations until the office of financial management has approved
29 the allotment of the funds to be expended. The office of financial
30 management shall encourage state agencies to incorporate accessibility
31 planning and improvements into the normal and customary capital
32 program.

33 (4) It is generally not intended to make future appropriations for
34 capital expenditures or for maintenance and operating expenses for an
35 acquisition project or a significant expansion project that is
36 initiated through the minor works process and therefore does not
37 receive a policy and fiscal analysis by the legislature. Minor works

1 projects are intended to be one-time expenditures that do not require
2 future state resources to complete.

3 NEW SECTION. **Sec. 906.** (1) The governor, through the office of
4 financial management, may authorize a transfer of appropriation
5 authority provided for a capital project that is in excess of the
6 amount required for the completion of such project to another capital
7 project for which the appropriation is insufficient. No such transfer
8 may be used to expand the capacity of any facility beyond that intended
9 by the legislature in making the appropriation. Such transfers may be
10 effected only between capital appropriations to a specific department,
11 commission, agency, or institution of higher education and only between
12 capital projects that are funded from the same fund or account. No
13 transfers may occur between projects to local government agencies
14 except where the grants are provided within a single omnibus
15 appropriation and where such transfers are specifically authorized by
16 the implementing statutes that govern the grants.

17 (2) For purposes of this section, the governor may find that an
18 amount is in excess of the amount required for the completion of a
19 project only if: (a) The project as defined in the notes to the budget
20 document is substantially complete and there are funds remaining; or
21 (b) bids have been let on a project and it appears to a substantial
22 certainty that the project as defined in the notes to the budget
23 document can be completed within the biennium for less than the amount
24 appropriated in this act.

25 (3) For the purposes of this section, the intent is that each
26 project be defined as proposed to the legislature in the governor's
27 budget document, unless it clearly appears from the legislative history
28 that the legislature intended to define the scope of a project in a
29 different way.

30 (4) Transfers of funds to an agency's infrastructure savings
31 appropriation are subject to review and approval by the office of
32 financial management. Expenditures from an infrastructure savings
33 appropriation are limited to projects that have a primary purpose to
34 correct infrastructure deficiencies or conditions that: (a) Adversely
35 affect the ability to utilize the infrastructure for its current
36 programmatic use; (b) reduce the life expectancy of the infrastructure;
37 or (c) increase the operating costs of the infrastructure for its

1 current programmatic use. Eligible infrastructure projects may include
2 structures and surface improvements, site amenities, utility systems
3 outside building footprints and natural environmental changes or
4 requirements as part of an environmental regulation, a declaration of
5 emergency for an infrastructure issue in conformance with RCW
6 43.88.250, or infrastructure planning as part of a facility master
7 plan.

8 (5) A report of any transfer effected under this section, except
9 emergency projects or any transfer under \$250,000, shall be filed with
10 the legislative fiscal committees of the senate and house of
11 representatives by the office of financial management at least thirty
12 days before the date the transfer is effected. The office of financial
13 management shall report all emergency or smaller transfers within
14 thirty days from the date of transfer.

15 NEW SECTION. **Sec. 907.** (1) It is expected that projects be ready
16 to proceed in a timely manner depending on the type or phase of the
17 project or program that is the subject of the appropriation in this
18 act. Except for major projects that customarily may take more than two
19 biennia to complete from predesign to the end of construction, or large
20 infrastructure grant or loan programs supporting projects that often
21 take more than two biennia to complete, the legislature generally does
22 not intend to reappropriate funds more than once, particularly for
23 smaller grant programs, local/community projects, and minor works.

24 (2) Agencies shall expedite the expenditure of reappropriations and
25 appropriations in this act in order to: (a) Rehabilitate
26 infrastructure resources; (b) accelerate environmental rehabilitation
27 and restoration projects for the improvement of the state's natural
28 environment; (c) reduce additional costs associated with acquisition
29 and construction inflationary pressures; and (d) provide additional
30 employment opportunities associated with capital expenditures.

31 (3) To the extent feasible, agencies are directed to accelerate
32 expenditure rates at their current level of permanent employees and
33 shall use contracted design and construction services wherever
34 necessary to meet the goals of this section.

35 (4) The office of financial management shall report the following
36 to the appropriate fiscal committees of the legislature by January 30,
37 2007: (a) A listing of reappropriations in the governor's 2007-2009

1 capital budget recommendation that will be reappropriated more than
2 once and have ten percent or more of the original appropriation
3 unexpended; and (b) an explanation of why the appropriation remains
4 unexpended.

5 NEW SECTION. **Sec. 908.** The legislature finds that the state's
6 public four-year institutions and the higher education coordinating
7 board have made substantial progress in developing a process to create
8 a single prioritized list of capital project requests as required under
9 RCW 28B.76.220. The legislature also recognizes that continuing work
10 by the institutions and the board is needed to refine the methodology
11 for determining the ranking of project requests, and that this work
12 will benefit from additional legislative guidance. Therefore, the
13 higher education coordinating board and the public four-year
14 institutions, in developing and submitting the single prioritized
15 project list of capital project requests under RCW 28B.76.220, shall
16 use the following additional guidelines:

17 (1) Representatives of the board shall participate in the process
18 of scoring projects using the criteria in the board's biennial budget
19 guidelines. Representatives of the board shall also review the
20 preliminary project list to verify the scoring and ranking of projects.
21 As required under RCW 28B.76.210, institutions must submit the
22 preliminary project list to the board by August 1st of each even-
23 numbered year to enable this review. Any disagreements over project
24 scorings or rankings shall be resolved as provided under RCW
25 28B.76.220(4).

26 (2) The board's biennial budget guidelines and the prioritization
27 process shall place a greater emphasis on early critical review of
28 project proposals at the pre-design phase, rather than deferring
29 critical review and prioritization to the design or construction phases
30 of a project.

31 (3) When projects are aggregated into single line-item requests,
32 each project must meet the definition of minor works according to the
33 capital budget instructions issued by the office of financial
34 management. All major projects must be listed and ranked as individual
35 line-item requests.

36 (4) The scoring and ranking of projects shall not be based on
37 assigning an equal number of overall points to each public four-year

1 institution, but shall reflect an assignment of points to individual
2 projects based on the priorities and criteria in this section and in
3 the board's biennial budget guidelines.

4 (5) Projects shall not be ranked on the basis of a project funding
5 source.

6 (6) In consultation with the appropriate fiscal and policy
7 committees of the legislature, the board shall identify statewide
8 priorities for higher education capital investments and incorporate
9 those priorities into its biennial budget guidelines. The statewide
10 priorities shall address the need for higher education capital projects
11 to:

12 (a) Implement a specific legislatively authorized program or
13 planning priority;

14 (b) Reduce the backlog of deferred building or system preservation,
15 renewal, or replacement;

16 (c) Provide additional capacity or adaptation of space for high
17 demand instructional or research programs;

18 (d) Provide additional instructional program capacity for under-
19 served geographic regions or populations; and

20 (e) Reflect institutional planning priorities and areas of
21 emphasis.

22 (7) The board's biennial budget guidelines shall include a
23 quantitative method for scoring projects on the identified priorities.
24 The quantitative method shall include use of the facility condition
25 index developed by the joint legislative audit and review committee for
26 assessing building or system condition, and use of the board's space
27 utilization and allocation standards for assessing the need for
28 additional capacity.

29 ***NEW SECTION. Sec. 909.** ACQUISITION OF PROPERTIES AND FACILITIES
30 THROUGH FINANCIAL CONTRACTS. The following agencies may enter into
31 financial contracts, paid from any funds of an agency, appropriated or
32 nonappropriated, for the purposes indicated and in not more than the
33 principal amounts indicated, plus financing expenses and required
34 reserves pursuant to chapter 39.94 RCW. When securing properties under
35 this section, agencies shall use the most economical financial contract
36 option available, including long-term leases, lease-purchase
37 agreements, lease-development with option to purchase agreements or

1 financial contracts using certificates of participation. Expenditures
2 made by an agency for one of the indicated purposes before the issue
3 date of the authorized financial contract and any certificates of
4 participation therein are intended to be reimbursed from proceeds of
5 the financial contract and any certificates of participation therein to
6 the extent provided in the agency's financing plan approved by the
7 state finance committee.

8 State agencies may enter into agreements with the department of
9 general administration and the state treasurer's office to develop
10 requests to the legislature for acquisition of properties and
11 facilities through financial contracts. The agreements may include
12 charges for services rendered.

13 (1) Department of general administration:

14 (a) Enter into a financing contract for up to \$12,000,000 plus
15 financing expenses and required reserves pursuant to chapter 39.94 RCW
16 to construct the fifth and final phase of the roof membrane replacement
17 at the east plaza parking structure as well as safety improvements to
18 the parking garage below the plaza.

19 (b) Enter into a financing contract for up to \$6,000,000 plus
20 financing expenses and required reserves pursuant to chapter 39.94 RCW
21 for the fourth phase of the office building-2 rehabilitation that will
22 renew failing building systems, correct code deficiencies, and improve
23 access.

24 (c) Enter into a financing contract for up to \$13,000,000 plus
25 financing expenses and required reserves pursuant to chapter 39.94 RCW
26 for the rehabilitation of the Cherberg building.

27 (2) Liquor control board: Enter into a financing contract for up
28 to \$17,000,000 plus financing expenses and required reserves pursuant
29 to chapter 39.94 RCW to construct an extension to the liquor control
30 board's distribution center to meet liquor sales growth through 2018.

31 (3) Department of corrections:

32 (a) Enter into a financing contract for up to \$400,000 plus
33 financing expenses and required reserves pursuant to chapter 39.94 RCW
34 to construct a waste transfer station and purchase a garbage truck at
35 the McNeil Island corrections center.

36 (b) Enter into a financing contract for up to \$4,588,000 plus
37 financing expenses and required reserves pursuant to chapter 39.94 RCW

1 to construct a transportation services warehouse and offices for
2 correctional industries.

3 (c) Enter into a financing contract for up to \$4,536,000 plus
4 financing expenses and required reserves pursuant to chapter 39.94 RCW
5 to construct additions to the food factory and warehouses at the Airway
6 Heights corrections center for correctional industries.

7 (4) Parks and recreation commission: Enter into a financing
8 contract in an amount not to exceed \$4,800,000 plus financing expenses
9 and required reserves pursuant to chapter 39.94 RCW to develop Cama
10 Beach state park.

11 (5) Community and technical colleges:

12 (a) Enter into a financing contract on behalf of Bellevue Community
13 College for up to \$20,000,000 plus financing expenses and required
14 reserves pursuant to chapter 39.94 RCW to purchase the North Center
15 building.

16 (b) Enter into a financing contract on behalf of Clark College for
17 up to \$9,100,000 plus financing expenses and required reserves pursuant
18 to chapter 39.94 RCW to construct a parking structure.

19 (c) Enter into a financing contract on behalf of Clover Park
20 Technical College for up to \$14,000,000 plus financing expenses and
21 required reserves pursuant to chapter 39.94 RCW to construct a student
22 center.

23 (d) Enter into a financing contract on behalf of Columbia Basin
24 College for up to \$1,500,000 plus financing expenses and required
25 reserves pursuant to chapter 39.94 RCW to renovate the Hawk Union
26 building.

27 (e) Enter into a financing contract on behalf of Edmonds Community
28 College for up to \$4,000,000 plus financing expenses and required
29 reserves pursuant to chapter 39.94 RCW to construct a black box theater
30 as a part of the Instructional Lab building.

31 (f) Enter into a financing contract on behalf of Green River
32 Community College for up to \$7,000,000 plus financing expenses and
33 required reserves pursuant to chapter 39.94 RCW to purchase Kent
34 Station higher education center.

35 (g) Enter into a financing contract on behalf of Olympic College
36 for up to \$3,600,000 plus financing expenses and required reserves
37 pursuant to chapter 39.94 RCW to construct an addition to the student
38 center bookstore.

1 (h) Enter into a financing contract on behalf of Shoreline
2 Community College for up to \$15,000,000 plus financing expenses and
3 required reserves pursuant to chapter 39.94 RCW to construct a student
4 union building.

5 (i) Enter into a financing contract on behalf of Skagit Valley
6 Community College for up to \$3,200,000 plus financing expenses and
7 required reserves pursuant to chapter 39.94 RCW to renovate existing
8 space into a new student center.

9 (j) Enter into a financing contract on behalf of Walla Walla
10 Community College for up to \$2,175,100 plus financing expenses and
11 required reserves pursuant to chapter 39.94 RCW to purchase land and
12 construct a building for the enology program.

13 (k) Enter into a financing contract on behalf of Walla Walla
14 Community College for up to \$640,000 plus financing expenses and
15 required reserves pursuant to chapter 39.94 RCW to construct an
16 addition to the health sciences building at the Clarkston center.

17 (l) Enter into a financing contract on behalf of Seattle Central
18 Community College for up to \$3,000,000 plus financing expenses and
19 required reserves pursuant to chapter 39.94 RCW to construct a math and
20 science building.

21 (m) Enter into a financing contract on behalf of Pierce
22 College/Puyallup for up to \$8,000,000 plus financing expenses and
23 required reserves pursuant to chapter 39.94 RCW to construct a student
24 gym and fitness center.

25 (n) Enter into a financing contract on behalf of Pierce College/Ft.
26 Steilacoom for up to \$5,000,000 plus financing expenses and required
27 reserves pursuant to chapter 39.94 RCW to construct an addition to the
28 college health and wellness center.

29 ***(o) Enter into a financing contract on behalf of Cascadia Community***
30 ***College in an amount not to exceed \$7,800,000 plus financing expenses***

37 (p) The projects in (a), (f), (k), (m), and (n) of this subsection
38 are reauthorizations of projects originally authorized in the 2003-2005

1 biennium. If the college enters into a financing contract before the
2 effective date of this section, then the appropriate reauthorization
3 contained in this section is null and void.

4 (6) Washington State University: Enter into a financing contract
5 for up to \$11,650,000 plus financing expenses and required reserves
6 pursuant to chapter 39.94 RCW to construct a bioproducts facility in
7 the Tri-Cities.

8 (7) **University of Washington: Enter into a financing contract in**
9 **an amount not to exceed \$7,800,000 plus financing expenses and required**
10 **reserves pursuant to chapter 39.94 RCW to construct the south campus**
11 **access at the Bothell campus. In identifying the revenue sources to**
12 **fund the financing contract, the university shall consider the sale of**
13 **property at Wellington Hills, parking fees at the Bothell campus, and**
14 **contributions from local governments near the Bothell campus.**

**Sec. 909 was partially vetoed. See message at end of chapter.*

15 NEW SECTION. **Sec. 910.** FOR THE ARTS COMMISSION--ART WORK
16 ALLOWANCE POOLING. (1) One-half of one percent of moneys appropriated
17 in this act for original construction of school plant facilities is
18 provided solely for the purposes of RCW 28A.335.210. The Washington
19 state arts commission may combine the proceeds from individual projects
20 in order to fund larger works of art or mobile art displays in
21 consultation with the superintendent of public instruction and
22 representatives of school district boards.

23 (2) One-half of one percent of moneys appropriated in this act for
24 original construction or any major renovation or remodel work exceeding
25 two hundred thousand dollars by colleges or universities is provided
26 solely for the purposes of RCW 28B.10.027. The Washington state arts
27 commission may combine the proceeds from individual projects in order
28 to fund larger works of art or mobile art displays in consultation with
29 the board of regents or trustees.

30 (3) One-half of one percent of moneys appropriated in this act for
31 original construction of any public building by a state agency as
32 defined in RCW 43.17.020 is provided solely for the purposes of RCW
33 43.17.200. The Washington state arts commission may combine the
34 proceeds from individual projects in order to fund larger works of art
35 or mobile art displays in consultation with the state agency.

36 (4) At least eighty-five percent of the moneys spent by the
37 Washington state arts commission during the 2005-2007 biennium for the

1 purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended
2 solely for direct acquisition of works of art. The commission may use
3 up to \$100,000 of this amount to contract for service to conserve or
4 maintain existing pieces in the state art collection pursuant to
5 chapter . . . (House Bill No. 2188 (funding the conservation of the
6 state art collection)), Laws of 2005.

7 NEW SECTION. **Sec. 911.** The amounts shown under the headings
8 "Prior Biennia," "Future Biennia," and "Total" in this act are for
9 informational purposes only and do not constitute legislative approval
10 of these amounts. "Prior biennia" typically refers to the immediate
11 prior biennium for reappropriations, but may refer to multiple biennia
12 in the case of specific projects. A "future biennia" amount is an
13 estimate of what may be appropriated for the project or program in the
14 2007-09 biennium and the following four biennia; an amount of zero does
15 not necessarily constitute legislative intent to not provide funding
16 for the project or program in the future.

17 NEW SECTION. **Sec. 912.** "Reappropriations" in this act are
18 appropriations and, unless the context clearly provides otherwise, are
19 subject to the relevant conditions and limitations applicable to
20 appropriations. Reappropriations shall be limited to the unexpended
21 balances remaining on June 30, 2005, from the 2003-2005 biennial
22 appropriations for each project.

23 NEW SECTION. **Sec. 913.** To carry out the provisions of this act,
24 the governor may assign responsibility for predesign, design,
25 construction, and other related activities to any appropriate agency.

26 NEW SECTION. **Sec. 914.** If any federal moneys appropriated by this
27 act for capital projects are not received by the state, the department
28 or agency to which the moneys were appropriated may replace the federal
29 moneys with funds available from private or local sources. No
30 replacement may occur under this section without the prior approval of
31 the director of financial management in consultation with the senate
32 ways and means committee and the house of representatives capital
33 budget committee.

1 NEW SECTION. **Sec. 915.** (1) Unless otherwise stated, for all
2 appropriations under this act that require a match of nonstate money or
3 in-kind contributions, the following requirement, consistent with RCW
4 43.88.150, shall apply: Expenditures of state money shall be timed so
5 that the state share of project expenditures never exceeds the intended
6 state share of total project costs.

7 (2) Provision of the full amount of required matching funds is not
8 required to permit the expenditure of capital budget appropriations for
9 phased projects if a proportional amount of the required matching funds
10 is provided for each distinct, identifiable phase of the project.

11 NEW SECTION. **Sec. 916.** Any capital improvements or capital
12 projects involving construction or major expansion of a state office
13 facility, including, but not limited to, district headquarters,
14 detachment offices, and off-campus faculty offices, must be reviewed by
15 the department of general administration for possible consolidation,
16 colocation, and compliance with state office standards before allotment
17 of funds. The intent of the requirement imposed by this section is to
18 eliminate duplication and reduce total office space requirements where
19 feasible, while ensuring proper service to the public.

20 NEW SECTION. **Sec. 917.** The military department shall file
21 quarterly progress reports in addition to the annual project progress
22 reporting requirement of RCW 43.88.160(3). These reports must contain
23 local, state, and federal funding reconciliation and balance sheets for
24 all appropriated readiness center projects and detail any federal
25 intentions on future readiness centers and other facilities.

26 NEW SECTION. **Sec. 918.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
27 Portions of the appropriation authority granted by this act from the
28 state building construction account, or any other account receiving
29 bond proceeds, may be transferred to the state taxable building
30 construction account as deemed necessary by the state finance committee
31 to comply with the federal internal revenue service rules and
32 regulations pertaining to the use of nontaxable bond proceeds. The
33 state treasurer shall submit written notification to the director of
34 financial management if it is determined that a shift of appropriation

1 authority from the state building construction account, or any other
2 account receiving bond proceeds, to the state taxable building
3 construction account is necessary.

4 NEW SECTION. **Sec. 919.** The office of financial management, in
5 consultation with the department of general administration, shall
6 identify capital projects that may benefit from an energy analysis to
7 determine whether there are alternate, more economical, and energy
8 efficient means of completing the work. The office of financial
9 management shall hold appropriations in allotment reserve on the
10 following types of capital projects until this analysis can be
11 completed: Heating, ventilation, and air conditioning modifications,
12 chiller plants, steam plants, boilers, chilled water or steam lines,
13 building control systems, lighting improvements, or other major energy
14 using systems that may warrant additional analysis. Agencies receiving
15 appropriations for such projects are encouraged to utilize energy
16 performance contracts or alternative financing for equipment in lieu of
17 state appropriated funds. The office of financial management may
18 transfer funds remaining in allotment reserve to infrastructure savings
19 projects within the agency that has realized savings from energy
20 efficiency alternatives.

21 **Sec. 920.** RCW 43.135.045 and 2003 1st sp.s. c 25 s 920 are each
22 amended to read as follows:

23 (1) The emergency reserve fund is established in the state
24 treasury. During each fiscal year, the state treasurer shall deposit
25 in the emergency reserve fund all general fund--state revenues in
26 excess of the state expenditure limit for that fiscal year. Deposits
27 shall be made at the end of each fiscal quarter based on projections of
28 state revenues and the state expenditure limit. The treasurer shall
29 make transfers between these accounts as necessary to reconcile actual
30 annual revenues and the expenditure limit for fiscal year 2000 and
31 thereafter.

32 (2) The legislature may appropriate moneys from the emergency
33 reserve fund only with approval of at least two-thirds of the members
34 of each house of the legislature, and then only if the appropriation
35 does not cause total expenditures to exceed the state expenditure limit
36 under this chapter.

1 (3) The emergency reserve fund balance shall not exceed five
2 percent of annual general fund--state revenues as projected by the
3 official state revenue forecast. Any balance in excess of five percent
4 shall be transferred on a quarterly basis by the state treasurer as
5 follows: Seventy-five percent to the student achievement fund hereby
6 created in the state treasury and twenty-five percent to the general
7 fund balance. The treasurer shall make transfers between these
8 accounts as necessary to reconcile actual annual revenues for fiscal
9 year 2000 and thereafter. When per-student state funding for the
10 maintenance and operation of K-12 education meets a level of no less
11 than ninety percent of the national average of total funding from all
12 sources per student as determined by the most recent published data
13 from the national center for education statistics of the United States
14 department of education, as calculated by the office of financial
15 management, further deposits to the student achievement fund shall be
16 required only to the extent necessary to maintain the ninety-percent
17 level. Remaining funds are part of the general fund balance and these
18 funds are subject to the expenditure limits of this chapter.

19 (4) The education construction fund is hereby created in the state
20 treasury.

21 (a) Funds may be appropriated from the education construction fund
22 exclusively for common school construction or higher education
23 construction. During the fiscal years beginning July 1, 2005, and
24 ending June 30, 2007, funds may also be used for higher education
25 facilities preservation and maintenance.

26 (b) Funds may be appropriated for any other purpose only if
27 approved by a two-thirds vote of each house of the legislature and if
28 approved by a vote of the people at the next general election. An
29 appropriation approved by the people under this subsection shall result
30 in an adjustment to the state expenditure limit only for the fiscal
31 period for which the appropriation is made and shall not affect any
32 subsequent fiscal period.

33 (5) Funds from the student achievement fund shall be appropriated
34 to the superintendent of public instruction strictly for distribution
35 to school districts to meet the provisions set out in the student
36 achievement act. Allocations shall be made on an equal per full-time
37 equivalent student basis to each school district.

1 (6) Earnings of the emergency reserve fund under RCW
2 43.84.092(4)(a) shall be transferred quarterly to the multimodal
3 transportation account, except for those earnings that are in excess of
4 thirty-five million dollars each fiscal year. Within thirty days
5 following any fiscal year in which earnings transferred to the
6 multimodal transportation account under this subsection did not total
7 thirty-five million dollars, the state treasurer shall transfer from
8 the emergency reserve fund an amount necessary to bring the total
9 deposited in the multimodal transportation account under this
10 subsection to thirty-five million dollars. The revenues to the
11 multimodal transportation account reflected in this subsection provide
12 ongoing support for the transportation programs of the state. However,
13 it is the intent of the legislature that any new long-term financial
14 support that may be subsequently provided for transportation programs
15 will be used to replace and supplant the revenues reflected in this
16 subsection, thereby allowing those revenues to be returned to the
17 purposes to which they were previously dedicated. No transfers from
18 the emergency reserve fund to the multimodal fund shall be made during
19 the 2003-05 fiscal biennium.

20 **Sec. 921.** RCW 43.88.032 and 1997 c 96 s 5 are each amended to read
21 as follows:

22 (1) Normal maintenance costs, except for funds appropriated for
23 facility preservation of state institutions of higher education, shall
24 be programmed in the operating budget rather than in the capital
25 budget.

26 (2) All debt-financed pass-through money to local governments shall
27 be programmed and separately identified in the budget document.

28 **Sec. 922.** RCW 28B.50.360 and 2004 c 277 s 910 are each amended to
29 read as follows:

30 Within thirty-five days from the date of start of each quarter all
31 collected building fees of each such community and technical college
32 shall be paid into the state treasury, and shall be credited as
33 follows:

34 (1) On or before June 30th of each year the college board if
35 issuing bonds payable out of building fees shall certify to the state
36 treasurer the amounts required in the ensuing twelve-month period to

1 pay and secure the payment of the principal of and interest on such
2 bonds. The state treasurer shall thereupon deposit the amounts so
3 certified in the community and technical college capital projects
4 account. Such amounts of the funds deposited in the community and
5 technical college capital projects account as are necessary to pay and
6 secure the payment of the principal of and interest on the building
7 bonds issued by the college board as authorized by this chapter shall
8 be exclusively devoted to that purpose. If in any twelve-month period
9 it shall appear that the amount certified by the college board is
10 insufficient to pay and secure the payment of the principal of and
11 interest on the outstanding building bonds, the state treasurer shall
12 notify the college board and such board shall adjust its certificate so
13 that all requirements of moneys to pay and secure the payment of the
14 principal and interest on all such bonds then outstanding shall be
15 fully met at all times.

16 (2) The community and technical college capital projects account is
17 hereby created in the state treasury. The sums deposited in the
18 capital projects account shall be appropriated and expended exclusively
19 to pay and secure the payment of the principal of and interest on bonds
20 payable out of the building fees and for the construction,
21 reconstruction, erection, equipping, maintenance, demolition and major
22 alteration of buildings and other capital assets owned by the state
23 board for community and technical colleges in the name of the state of
24 Washington, and the acquisition of sites, rights-of-way, easements,
25 improvements or appurtenances in relation thereto, (~~and, during the~~
26 ~~2003-05 biennium,~~) engineering and architectural services provided by
27 the department of general administration, and for the payment of
28 principal of and interest on any bonds issued for such purposes.

29 ****NEW SECTION. Sec. 923. The department of general administration***

1 NEW SECTION. **Sec. 924.** In accordance with the recommendation of
2 the joint legislative audit and review committee report "Performance
3 Audit of Capital Budget Processes," the office of financial management
4 shall develop a plan, in consultation with legislative fiscal
5 committees, to address weaknesses identified in that report in the
6 oversight of facility projects. The report shall address, but not be
7 limited to:

8 (1) Aligning resources to program workload;

9 (2) Identifying and institutionalizing best practices;

10 (3) Creating easily accessible and reliable information systems;

11 and

12 (4) Improving the review and evaluation of projects at the
13 predesign stage prior to the authorization of design and construction.

14 The office of financial management shall report on its plan to the
15 governor and the senate committee on ways and means and house of
16 representatives capital budget committee no later than December 1,
17 2005.

18 **Sec. 925.** RCW 43.155.050 and 2001 c 131 s 2 are each amended to
19 read as follows:

20 The public works assistance account is hereby established in the
21 state treasury. Money may be placed in the public works assistance
22 account from the proceeds of bonds when authorized by the legislature
23 or from any other lawful source. Money in the public works assistance
24 account shall be used to make loans and to give financial guarantees to
25 local governments for public works projects. Moneys in the account may
26 also be appropriated to provide for state match requirements under
27 federal law for projects and activities conducted and financed by the
28 board under the drinking water assistance account. Not more than
29 fifteen percent of the biennial capital budget appropriation to the
30 public works board from this account may be expended or obligated for
31 preconstruction loans, emergency loans, or loans for capital facility
32 planning under this chapter; of this amount, not more than ten percent
33 of the biennial capital budget appropriation may be expended for
34 emergency loans and not more than one percent of the biennial capital
35 budget appropriation may be expended for capital facility planning
36 loans. For the 2005-2007 biennium, moneys in the account may be used
37 for grants for projects identified in section 138 of this act.

1 **Sec. 926.** RCW 70.105D.070 and 2003 1st sp.s. c 25 s 933 are each
2 amended to read as follows:

3 (1) The state toxics control account and the local toxics control
4 account are hereby created in the state treasury.

5 (2) The following moneys shall be deposited into the state toxics
6 control account: (a) Those revenues which are raised by the tax
7 imposed under RCW 82.21.030 and which are attributable to that portion
8 of the rate equal to thirty-three one-hundredths of one percent; (b)
9 the costs of remedial actions recovered under this chapter or chapter
10 70.105A RCW; (c) penalties collected or recovered under this chapter;
11 and (d) any other money appropriated or transferred to the account by
12 the legislature. Moneys in the account may be used only to carry out
13 the purposes of this chapter, including but not limited to the
14 following activities:

15 (i) The state's responsibility for hazardous waste planning,
16 management, regulation, enforcement, technical assistance, and public
17 education required under chapter 70.105 RCW;

18 (ii) The state's responsibility for solid waste planning,
19 management, regulation, enforcement, technical assistance, and public
20 education required under chapter 70.95 RCW;

21 (iii) The hazardous waste cleanup program required under this
22 chapter;

23 (iv) State matching funds required under the federal cleanup law;

24 (v) Financial assistance for local programs in accordance with
25 chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

26 (vi) State government programs for the safe reduction, recycling,
27 or disposal of hazardous wastes from households, small businesses, and
28 agriculture;

29 (vii) Hazardous materials emergency response training;

30 (viii) Water and environmental health protection and monitoring
31 programs;

32 (ix) Programs authorized under chapter 70.146 RCW;

33 (x) A public participation program, including regional citizen
34 advisory committees;

35 (xi) Public funding to assist potentially liable persons to pay for
36 the costs of remedial action in compliance with cleanup standards under
37 RCW 70.105D.030(2)(e) but only when the amount and terms of such
38 funding are established under a settlement agreement under RCW

1 70.105D.040(4) and when the director has found that the funding will
2 achieve both (A) a substantially more expeditious or enhanced cleanup
3 than would otherwise occur, and (B) the prevention or mitigation of
4 unfair economic hardship; and

5 (xii) Development and demonstration of alternative management
6 technologies designed to carry out the top two hazardous waste
7 management priorities of RCW 70.105.150.

8 (3) The following moneys shall be deposited into the local toxics
9 control account: Those revenues which are raised by the tax imposed
10 under RCW 82.21.030 and which are attributable to that portion of the
11 rate equal to thirty-seven one-hundredths of one percent.

12 (a) Moneys deposited in the local toxics control account shall be
13 used by the department for grants or loans to local governments for the
14 following purposes in descending order of priority: (i) Remedial
15 actions; (ii) hazardous waste plans and programs under chapter 70.105
16 RCW; (iii) solid waste plans and programs under chapters 70.95, 70.95C,
17 70.95I, and 70.105 RCW; (iv) funds for a program to assist in the
18 assessment and cleanup of sites of methamphetamine production, but not
19 to be used for the initial containment of such sites, consistent with
20 the responsibilities and intent of RCW 69.50.511; and (v) cleanup and
21 disposal of hazardous substances from abandoned or derelict vessels
22 that pose a threat to human health or the environment. For purposes of
23 this subsection (3)(a)(v), "abandoned or derelict vessels" means
24 vessels that have little or no value and either have no identified
25 owner or have an identified owner lacking financial resources to clean
26 up and dispose of the vessel. Funds for plans and programs shall be
27 allocated consistent with the priorities and matching requirements
28 established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW. During
29 the 1999-2001 fiscal biennium, moneys in the account may also be used
30 for the following activities: Conducting a study of whether dioxins
31 occur in fertilizers, soil amendments, and soils; reviewing
32 applications for registration of fertilizers; and conducting a study of
33 plant uptake of metals. During the ~~((2003-05))~~ 2005-2007 fiscal
34 biennium, the legislature may transfer from the local toxics control
35 account to the state toxics control account such amounts as specified
36 in the omnibus ~~((operating))~~ capital budget bill ~~((for methamphetamine
37 lab cleanup))~~. During the 2005-2007 fiscal biennium, moneys in the

1 account may also be used for grants to local governments to retrofit
2 public sector diesel equipment and for storm water planning and
3 implementation activities.

4 (b) Funds may also be appropriated to the department of health to
5 implement programs to reduce testing requirements under the federal
6 safe drinking water act for public water systems. The department of
7 health shall reimburse the account from fees assessed under RCW
8 70.119A.115 by June 30, 1995.

9 (4) Except for unanticipated receipts under RCW 43.79.260 through
10 43.79.282, moneys in the state and local toxics control accounts may be
11 spent only after appropriation by statute.

12 (5) One percent of the moneys deposited into the state and local
13 toxics control accounts shall be allocated only for public
14 participation grants to persons who may be adversely affected by a
15 release or threatened release of a hazardous substance and to not-for-
16 profit public interest organizations. The primary purpose of these
17 grants is to facilitate the participation by persons and organizations
18 in the investigation and remedying of releases or threatened releases
19 of hazardous substances and to implement the state's solid and
20 hazardous waste management priorities. However, during the 1999-2001
21 fiscal biennium, funding may not be granted to entities engaged in
22 lobbying activities, and applicants may not be awarded grants if their
23 cumulative grant awards under this section exceed two hundred thousand
24 dollars. No grant may exceed sixty thousand dollars. Grants may be
25 renewed annually. Moneys appropriated for public participation from
26 either account which are not expended at the close of any biennium
27 shall revert to the state toxics control account.

28 (6) No moneys deposited into either the state or local toxics
29 control account may be used for solid waste incinerator feasibility
30 studies, construction, maintenance, or operation.

31 (7) The department shall adopt rules for grant or loan issuance and
32 performance.

33 (8) During the 2005-2007 fiscal biennium, the legislature may
34 transfer from the state toxics control account to the water quality
35 account such amounts as reflect the excess fund balance of the fund.

36 NEW SECTION. Sec. 927. FOR THE STATE TREASURER--TRANSFERS

37 Local Toxics Control Account: For transfer

1 to the state toxics control account \$13,900,000

2 NEW SECTION. **Sec. 928.** (1) A study committee on outdoor
3 recreation is established. The study committee shall consist of four
4 members, as follows:

5 (a) One member from each of the two largest caucuses of the house
6 of representatives, appointed by the speaker of the house of
7 representatives; and

8 (b) One member from each of the two largest caucuses of the senate,
9 appointed by the president of the senate.

10 (2) The study committee members shall, by an affirmative vote of at
11 least three members, select a chair from among its membership.

12 (3) The study committee shall consult with individuals from the
13 public and private sectors and other interested parties, as may be
14 appropriate, for technical advice and assistance and may ask such
15 individuals to establish advisory committees or work groups that report
16 to the study committee. Those with whom the study committee must
17 consult include, but are not limited to, the following:

- 18 (a) Representatives from state agencies;
- 19 (b) Representatives from local governments;
- 20 (c) Representatives from recreation organizations;
- 21 (d) Representatives from agriculture;
- 22 (e) Representatives from environmental organizations; and
- 23 (f) Representatives from citizens' organizations.

24 (4) The study committee shall:

25 (a) Review local government responses to accommodating population
26 growth and the resulting recreational facility needs;

27 (b) Study infrastructure funding issues pertaining to recreational
28 facilities and examine methods by which local governments can reduce or
29 eliminate related funding shortfalls;

30 (c) Compile and review information about publicly owned properties
31 that may be suitable for use as recreational facilities;

32 (d) Compile an inventory of youth athletic fields and facilities
33 purchased with revenues connected to major league sports stadiums, and
34 recommend possible future funding options connected to major league
35 sports; and

36 (e) Make legislative findings and recommendations related to
37 recreational facility and funding needs.

1 (5) The study committee shall use staff from the house of
2 representatives office of program research and senate committee
3 services, in consultation with the department of community, trade, and
4 economic development and the interagency committee for outdoor
5 recreation.

6 (6) The study committee shall report its findings and
7 recommendations to the appropriate committees of the house of
8 representatives and the senate by January 1, 2006.

9 (7) The study committee expires January 1, 2006.

10 NEW SECTION. **Sec. 929.** To provide additional financial assistance
11 and relief to irrigation districts and farmers during the current
12 drought, loan principal and interest payments due to the department of
13 ecology from previous biennia loans and loans in the 2005-2007 biennium
14 for drought assistance or agricultural water supply projects may be
15 deferred for the 2005-2007 biennium. Deferrals are intended only for
16 loan recipients that involve a significant number of farmers who are
17 temporarily leasing or not using their water rights for the benefit of
18 the drought response. The deferrals shall apply to loans from the
19 state drought preparedness account, the state emergency water projects
20 revolving account, and state and local improvement revolving account
21 (water supply facilities). Such loan repayments will resume consistent
22 with the original loan agreement at the beginning of the 2007-2009
23 biennium.

24 NEW SECTION. **Sec. 930.** (1) The house of representatives capital
25 budget committee, with staff support provided by the office of program
26 research, shall research and develop recommendations and findings
27 comparing the stewardship costs to properly manage public lands
28 compared to private lands and the fiscal impacts on counties of
29 purchasing additional public lands under chapter 79A.15 RCW. The
30 capital budget committee shall work with the interagency committee for
31 outdoor recreation, the department of fish and wildlife, the department
32 of natural resources, and counties to obtain necessary information to
33 complete the report.

34 (a) The private versus public stewardship comparison component of
35 the report shall include, but not be limited to, weed control, diking
36 and drainage, fencing, signage, and other land management activities.

1 (b) The county fiscal impact component of the report shall include,
2 but not be limited to, a financial analysis determining the difference
3 by county of assessing property taxes on lands acquired under chapter
4 79A.15 RCW based on one hundred percent of a property's true and fair
5 value compared to assessing property as open space under chapter 84.34
6 RCW. The analysis shall also compare the fiscal impacts of using these
7 different property tax rates by county for existing game lands held by
8 the department of fish and wildlife and natural areas managed by the
9 department of natural resources.

10 (2) The capital budget committee shall prepare the report by
11 December 1, 2005.

12 ***NEW SECTION.** *Sec. 931. The office of financial management shall*

32 ***NEW SECTION.** *Sec. 932. The department of corrections shall report*
33 *to the office of financial management and the fiscal committees of the*
34 *legislature not later than September 1, 2006, on the feasibility and*
35 *cost of closing the McNeil Island corrections center (MICC). This*

1 report may utilize information from the department's updated master
2 plan, and shall include, but not be limited to:

3 (1) Current and projected future annual operating costs for the
4 MICC on a total and per capita basis, with comparisons to other
5 department facilities of similar security level and programming;

6 (2) Current and projected future annual level of subsidy provided
7 by MICC operations to the department of social and health services
8 facilities on McNeil Island that would have to be funded separately if
9 MICC were to close;

10 (3) Current and projected future annual level of subsidy provided
11 by MICC correctional industries and/or operations to other department
12 facilities that might have to be funded separately if MICC were to
13 close;

14 (4) Projected costs of mothballing the facility if it were closed;

15 (5) A project list and estimated cost of capital improvements that
16 would need to be funded over the next ten years if MICC were to remain
17 open;

18 (6) Information on the custody, housing, and programmatic needs of
19 the offenders housed at MICC; and

20 (7) Estimates of costs to construct additional facilities to house
21 the offenders removed from MICC and/or recommendations for placement at
22 suitable existing facilities.

**Sec. 932 was vetoed. See message at end of chapter.*

23 NEW SECTION. **Sec. 933.** The University of Washington shall examine
24 various models for the ongoing management of capital facilities
25 investments used by other organizations, including other higher
26 education institutions. These models should reflect the various
27 interrelated aspects of facilities management and investment including
28 operations and maintenance, minor capital projects, and major projects
29 to renew or expand existing facilities. The models should also
30 evaluate the respective funding responsibilities of the university and
31 other interested parties, and the respective roles of state operating
32 accounts, state capital accounts, local tuition and building fee
33 accounts, and external funds in the management of such capital
34 facilities. The university should assess these models with respect to
35 the strengths and weaknesses of systemically addressing the long-term
36 management and investment needs of the facilities, and submit a report

1 of these findings by January 1, 2006, to the governor, the house of
2 representatives capital budget committee, and the senate ways and means
3 committee.

4 NEW SECTION. **Sec. 934.** (1) The state treasurer shall conduct an
5 evaluation of Internal Revenue Service revenue ruling 63-20 relating to
6 bond financing contracts for capital construction projects supported by
7 state agency financing contracts as authorized in chapter 39.94 RCW.

8 (2) The evaluation shall include, but is not limited to:

9 (a) A description of 63-20 bond financing processes including the
10 differences with the various financing contracts subject to review and
11 approval by the state finance committee;

12 (b) A comparison of the 63-20 bond financing structure with other
13 financing structures for construction of capital projects that are for
14 either public or private use;

15 (c) A comparison of 63-20 alternative financing with debt
16 authorized in Article VIII of the state Constitution;

17 (d) An inventory of capital projects undertaken by state agencies,
18 including higher education institutions, local governments, and other
19 subdivisions of the state that have used 63-20 alternative financing
20 since January 1, 2000;

21 (e) An analysis of the benefits and the costs of the 63-20
22 alternative financing structures to the state; the costs may include,
23 but are not limited to, the impact on state lease rates, borrowing
24 rates, ongoing fees, building maintenance costs, and operating costs;
25 and

26 (f) An evaluation of potential effects of use of 63-20 bond
27 financing upon the overall administration of state obligations in the
28 municipal securities market.

29 (3) The state treasurer shall assemble an advisory committee to
30 assist in the conduct of the evaluation. The advisory committee shall
31 include two members of each house of the legislature, including one
32 from each major caucus appointed by the presiding officer, a
33 representative of the office of financial management, and one person
34 appointed by the governor.

35 (4) Based on the evaluation, the state treasurer shall make
36 recommendations to the governor and the legislature on the use of 63-20

1 alternative financing structures. The state treasurer shall report to
2 the governor and the fiscal committees of the legislature by December
3 1, 2005.

4 NEW SECTION. **Sec. 935.** The department of fish and wildlife shall
5 submit a plan to the appropriate committees of the legislature and to
6 the office of financial management for the disposal of the underused
7 properties near Port of Olympia land. The report shall identify
8 efficiencies that replace the need for space in the old buildings by
9 using printing, mailing, and warehousing facilities available through
10 other state agencies. The reports shall be submitted by December 1,
11 2005.

12 SUPPLEMENTAL PROVISIONS

13 **Sec. 936.** 2003 1st sp.s. c 26 s 115 (uncodified) is amended to
14 read as follows:

15 **FOR THE DEPARTMENT OF COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT**

16 Public Works Trust Fund (04-4-001)

17 The appropriation in this section is subject to the following
18 conditions and limitations: Expenditures of the appropriation shall
19 comply with chapter 43.155 RCW.

20 Appropriation:

21	Public Works Assistance Account--State	((\$261,200,000))
22		<u>\$416,200,000</u>

14 Drinking Water Assistance Account (04-4-002)

15 The appropriations in this section are subject to the following
16 conditions and limitations:

17 (1) Expenditures of the appropriation shall comply with RCW
18 70.119A.170.

19 (2)(a) The state building construction account appropriation is
20 provided solely to provide assistance to counties, cities, and special
21 purpose districts to identify, acquire, and rehabilitate public water
22 systems that have water quality problems or have been allowed to
23 deteriorate to a point where public health is an issue. Eligibility is
24 confined to applicants that already own at least one group A public
25 water system and that demonstrate a track record of sound drinking
26 water utility management. Funds may be used for: Planning, design,
27 and other preconstruction activities; system acquisition; and capital
28 construction costs.

29 (b) The state building construction account appropriation must be
30 jointly administered by the department of health, the public works
31 board, and the department of community, trade, and economic development
32 using the drinking water state revolving fund loan program as an
33 administrative model. In order to expedite the use of these funds and
34 minimize administration costs, this appropriation must be administered
35 by guidance, rather than rule. Projects must generally be prioritized
36 using the drinking water state revolving fund loan program criteria.

1 All financing provided through this program must be in the form of
2 grants that must partially cover project costs. The maximum grant to
3 any eligible entity may not exceed twenty-five percent of the funds
4 allocated to this appropriation.

35 Retsil: 240 Bed Nursing Facility (02-2-008)

1 **FOR THE DEPARTMENT OF ECOLOGY**

2 State Drought Preparedness (05-4-009)

3 The appropriations in this section are subject to the following
4 conditions and limitations:

5 (1) \$8,200,000 of the state taxable building construction account--
6 state appropriation shall be deposited in the state drought
7 preparedness account.

8 (2) The appropriations in this section are provided solely for
9 response to the statewide drought that was declared pursuant to chapter
10 43.83B RCW. The department of ecology may provide funding or
11 compensation for purchase or lease of water rights and to public bodies
12 as defined in RCW 43.83B.050 in connection with projects and measures
13 designed to alleviate drought conditions that may affect: Public
14 health and safety; drinking water supplies; agricultural activities; or
15 fish and wildlife survival.

16 (3) Projects or measures for which funding or compensation will be
17 provided must be connected with a water system, water source, or water
18 body that is receiving, or has been projected to receive, less than
19 seventy-five percent of normal water supply, as the result of natural
20 drought conditions. This reduction in water supply must be such that
21 it is causing, or will cause, undue hardship for the entities or fish
22 or wildlife depending on the water supply. General criteria for
23 guidelines to be established by the department of ecology for
24 distribution of funds must include: A balanced and equitable
25 distribution of the funds among the different sectors affected by
26 drought; a funding process that ensures funds are available for drought
27 impacts that arise both early and later during the course of the
28 drought; and preference for projects that leverage other federal and
29 local funds.

30 (4) Up to \$1,500,000 of the state drought preparedness account--
31 state appropriation in this section is provided to the Roza irrigation
32 district for the purchase or lease of water rights.

2 read as follows:

3 **FOR THE DEPARTMENT OF NATURAL RESOURCES**

4 Trust Land Transfer Program (04-2-010)

5 The state building construction account appropriation in this
6 section is subject to the following conditions and limitations:

7 (1) The total appropriation is provided to the department solely to
8 transfer from trust status or enter into thirty-year timber harvest
9 restrictive easements/leases for certain trust lands of state-wide
10 significance deemed appropriate for state park, fish and wildlife
11 habitat, natural area preserve, natural resources conservation area,
12 open space, or recreation purposes.

13 (2) Property transferred under this section shall be appraised and
14 transferred at fair market value. The value of the timber transferred
15 shall be deposited by the department to the common school construction
16 account in the same manner as timber revenues from other common school
17 trust lands. No deduction shall be made for the resource management
18 cost account under RCW 79.64.040. The value of the land transferred
19 shall be deposited in the natural resources real property replacement
20 account. These funds shall be expended by the department for the
21 exclusive purpose of acquiring commercial real property of equal value
22 to be managed as common school trust land.

23 (3) Property subject to easement/lease agreements under this
24 section shall be appraised at fair market value both with and without
25 the imposition of the easement/lease. The entire difference in
26 appraised value shall be deposited by the department to the common
27 school construction fund in the same manner as lease revenues from
28 other common school trust lands. No deduction shall be made for the
29 resource management cost account under RCW 79.64.040.

30 (4) All reasonable costs incurred by the department to implement
31 this section are authorized to be paid out of this appropriation.
32 Authorized costs include the actual cost of appraisals, staff time,
33 environmental reviews, surveys, and other similar costs.

34 (5) Intergrant exchanges between common school and other trust
35 lands of equal value may occur if the exchange is in the interest of
36 each trust, as determined by the board of natural resources.

37 (6) Prior to or concurrent with conveyance of these properties, the
38 department, with full cooperation of the receiving agencies, shall

1 execute and record a real property instrument that dedicates the
2 transferred properties to the purposes identified in subsection (1) of
3 this section for a minimum period of thirty years. The department of
4 natural resources, in consultation with the receiving state agencies,
5 shall develop policy to address requests to replace transferred
6 properties subject to the recorded property instrument that are no
7 longer deemed appropriate for the purposes identified in subsection (1)
8 of this section.

9 (7) The department and receiving agencies shall work in good faith
10 to carry out the intent of this section. However, the department or
11 receiving agencies may remove a property from the transfer list based
12 on new, substantive information, if it is determined that transfer of
13 the property is not in the statewide interest of either the common
14 school trust or the receiving agency.

15 (8) Except as provided in subsections (12) and (13) of this
16 section, the department shall execute trust land transfers and
17 easements/leases such that, after the deduction of reasonable costs as
18 provided in subsection (4) of this section, eighty percent of the
19 appropriation in this section is deposited in the common school
20 construction fund. To achieve the 80:20 ratio, the department may
21 offset transfers of property with low timber-to-land ratios with
22 easements/leases on other properties.

23 (9) On June 30, 2005, the state treasurer shall transfer all
24 remaining uncommitted funds from this appropriation to the common
25 school construction fund, except as provided in subsection (13) of this
26 section, and the appropriation in this section shall be reduced by an
27 equivalent amount.

28 (10) Except as provided in subsection (13) of this section, the
29 appropriation in this section is provided for a list of projects in
30 LEAP capital document No. 2003-17, as developed on June 4, 2003.

31 (11) The department of natural resources shall manage lands
32 acquired as "Bone river natural area preserve" as a natural resources
33 conservation area under chapter 79.71 RCW.

34 (12) The department may, after the deduction of reasonable costs as
35 provided in subsection (4) of this section, execute leases for an
36 initial term not to exceed fifty years, for Obstruction Pass, Point
37 Lawrence, and 40 acres on Maury Island. Leases executed under this
38 subsection may be renewed for an additional thirty-year period, under

1 terms and conditions established by the department, including
2 reevaluation. Trust land transfer leases under this subsection shall
3 not be subject to the 80:20 ratio of timber value to land value
4 required in subsection (8) of this section. Revenues derived from
5 leases under this subsection shall be deposited in the appropriate
6 account as provided by law.

7 (13) Up to \$4,500,000 of the appropriation from the state building
8 construction account--state appropriation is provided for the transfer
9 of trust land known as Harbour Pointe to the city of Mukilteo. Four
10 acres of buildable land shall be dedicated for use of a recreational
11 facility to serve only school-age children. Recreational space shall
12 also be designated as ball fields for the purposes of serving the area
13 youth.

15 The appropriations in this section (~~is~~) are subject to the
16 following conditions and limitations:

17 (1) For state assistance grants for purposes of calculating square
18 foot eligibility, kindergarten student headcount shall not be reduced
19 by fifty percent.

20 (2) \$2,000,000 from this appropriation is provided for skills
21 centers capital improvements. Skills centers shall submit a budget
22 plan to the state board of education and the appropriate fiscal
23 committees of the legislature for proposed expenditures and the
24 proposed expenditures shall conform with state board of education rules
25 and procedures for reimbursement of capital items. Funds not expended
26 by June 30, 2005, shall lapse.

27 (3) \$32,868,105 of this appropriation is provided solely to
28 increase the area cost allowance by \$15.00 per square foot for grades
29 K-12 for fiscal year 2004 and an additional \$4.49 per square foot for
30 grades K-12 for fiscal year 2005.

31 (4) The appropriation in this section includes the amounts
32 deposited in the common school construction account under section 603
33 of this act.

Sec. 954. 2004 c 277 s 904 (uncodified) is amended to read as follows:

1 ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL
2 CONTRACTS. The following agencies may enter into financial contracts,
3 paid from any funds of an agency, appropriated or nonappropriated, for
4 the purposes indicated and in not more than the principal amounts
5 indicated, plus financing expenses and required reserves pursuant to
6 chapter 39.94 RCW. When securing properties under this section,
7 agencies shall use the most economical financial contract option
8 available, including long-term leases, lease-purchase agreements,
9 lease-development with option to purchase agreements or financial
10 contracts using certificates of participation. Expenditures made by an
11 agency for one of the indicated purposes before the issue date of the
12 authorized financial contract and any certificates of participation
13 therein are intended to be reimbursed from proceeds of the financial
14 contract and any certificates of participation therein to the extent
15 provided in the agency's financing plan approved by the state finance
16 committee.

17 State agencies may enter into agreements with the department of
18 general administration and the state treasurer's office to develop
19 requests to the legislature for acquisition of properties and
20 facilities through financial contracts. The agreements may include
21 charges for services rendered.

22 (1) Department of general administration: Enter into a financing
23 contract for an amount approved by the office of financial management
24 for costs and financing expenses and required reserves pursuant to
25 chapter 39.94 RCW to lease develop or lease purchase a state office
26 building of 150,000 to 200,000 square feet on state-owned property in
27 Tumwater according to the terms of the agreement with the Port of
28 Olympia when the property was acquired or within the preferred
29 development/leasing areas in Thurston county. The building shall be
30 constructed and financed so that agency occupancy costs will not exceed
31 comparable private market rental rates. The comparable general office
32 space rate shall be calculated based on the three latest Thurston
33 county leases of new space of at least 100,000 rentable square feet
34 adjusted for inflation as determined by the department of general
35 administration. The department of general administration shall
36 coordinate with potential state agency tenants whose current lease
37 expire near the time of occupancy so that buyout of current leases do
38 not add to state expense. The office of financial management shall

1 certify to the state treasurer: (a) The project description and dollar
2 amount; and (b) that all requirements of this subsection (1) have been
3 met.

4 (2) Enter into, after approval by the office of financial
5 management and the state finance committee and a positive result from
6 the joint legislative audit and review committee leasing model, a long-
7 term lease of up to twenty-five years, or long-term lease with an
8 option to purchase, with the city of Seattle, for up to 250,000 square
9 feet of office space that is being lease developed by the city of
10 Seattle. Agency occupancy costs will not exceed comparable private
11 market rental rates in downtown Seattle. The comparable general office
12 space rate shall be calculated based on lease rates (adjusted for
13 inflation) of the tenants at the time of proposed occupancy as
14 determined by the department of general administration.

15 (3) Department of veterans affairs: Enter into a financing
16 contract in an amount not to exceed \$1,441,500 plus financing expenses
17 and required reserves pursuant to chapter 39.94 RCW to build and equip
18 a kitchen in existing shell space at the Spokane veterans home and
19 provide space for displaced functions.

20 (4) Department of corrections:

21 (a) Enter into a financing contract for up to \$400,000 plus
22 financing expenses and required reserves pursuant to chapter 39.94 RCW
23 to construct a waste transfer station and purchase a garbage truck at
24 the McNeil Island corrections center.

25 (b) Enter into a financing contract for up to \$4,588,000 plus
26 financing expenses and required reserves pursuant to chapter 39.94 RCW
27 to construct a transportation services warehouse and offices for
28 correctional industries.

29 (c) Enter into a financing contract for up to \$4,536,000 plus
30 financing expenses and required reserves pursuant to chapter 39.94 RCW
31 to construct additions to the food factory and warehouses at the Airway
32 Heights corrections center for correctional industries.

33 (5) Parks and recreation commission: Enter into a financing
34 contract in an amount not to exceed \$4,800,000 plus financing expenses
35 and required reserves pursuant to chapter 39.94 RCW to develop Cama
36 Beach state park.

37 (6) Community and technical colleges:

1 (a) Enter into a financing contract on behalf of Bellevue Community
2 College for up to \$20,000,000 plus financing expenses and required
3 reserves pursuant to chapter 39.94 RCW to purchase North Center campus.

4 (b) Enter into a financing contract on behalf of Big Bend Community

Passed by the Senate April 24, 2005.
 Passed by the House April 22, 2005.
 Approved by the Governor May 16, 2005, with the exception of certain items that were vetoed.
 Filed in Office of Secretary of State May 16, 2005.

Note: Governor's explanation of partial veto is as follows:

"I am returning, without my approval as to Sections 143(2)(b); 143(2)(c); 160; 163; 219, lines 25 - 31; 425, lines 7-10; 426(1); 427(1); 438; 615(4); 643, lines 4 - 7; 714, lines 4 - 5; 909(5)(o); 909(7); 923; 931; and 932 of Engrossed Senate Bill No. 6094 entitled:

"AN ACT Relating to the capital budget;"

My reasons for vetoing these sections are as follows:

Section 143(2)(b) and (c), page 26, Department of General Administration

Section 143(2)(b) and (c) state that the construction contract award for the Cherberg Building rehabilitation shall be made to the general contractor offering written and oral materials demonstrating the greatest value for attainment of the program objectives considering a number of evaluation criteria including cost, and that the project oversight is delegated to the Senate. These sections amend permanent statutes without reference by not clearly stating the intent to use alternative public works (RCW 39.10) and removing the custody and control of the building from the Department of General Administration as required by RCW 43.19.125. I am vetoing these sections, but I also direct the Department of General Administration to work with the Senate to ensure the project complies with RCW 39.10, that oversight complies with RCW 43.19.125, that the project remains observant of the historical and monumental nature of the building, and that the Senate is fully involved in decisions regarding the design, management and construction during the rehabilitation.

Section 160, page 34, Department of General Administration

This section directs that the state capitol committee consult with a legislative buildings committee in its work on the state capitol campus master plan. I am vetoing this section because it amends permanent statute without reference (RCW 43.34.010) by introducing additional participants and process steps that the state capitol committee must undertake before it can adopt the master plan.

Section 163, page 35, Department of General Administration

This section duplicates funding provided in the operating budget for Capitol Lake environmental preservation and planning. Operating funds are better suited to these activities so I am vetoing this section.

Section 219, page 45, lines 25-31, Department of Social and Health Services

The funds provided in this section are needed to make critical health and life safety improvements such as fire sprinklers in residences at the Fircrest School campus for the developmentally disabled. I am vetoing the conditions and limitations placed on this appropriation that require the Department of Social and Health Services to resolve issues with the food bank tenant at the campus so that these funds are available to make needed safety repairs. However, I direct DSHS to work with the tenant to examine the tenant's concerns.

Section 425, page 115, lines 7-10, Department of Fish and Wildlife

This section provides funding for the improvement of assorted departmental facilities, infrastructure, lands and access sites statewide. The proviso within the section stipulates that none of the funding may be used to construct a new public boat launch access on Lake Tahuyeh in Kitsap County. I am vetoing this section because, as the legal landowner, the department is prevented from lawful development of state-owned resources, which will further limit the expansion of public recreational fishing opportunities. However, I appreciate that Lake Tahuyeh residents may have concerns about the impact of the new facility and ask the department to work with local landowners as they develop and maintain the public access to the lake.

Section 426(1), page 115, Department of Fish and Wildlife

This subsection duplicates language that is identical to the subsequent proviso (2) in the same section.

Section 427(1), page 116, Department of Fish and Wildlife

This subsection duplicates language that is identical to the subsequent proviso (2) in the same section.

Section 438, Page 120, Department of Natural Resources

This section requires the Department of Natural Resources to conduct a study of deep-water geoduck and sea cucumber populations in Hood Canal, utilizing \$650,000 of funding from the Resource Management Cost Account (RMCA). This account receives revenue from two major activities - leases and sale of valuable materials from state-owned aquatic lands and leases and timber sales from state trust lands. I am vetoing this section because the projected fund balance of the aquatics portion of RMCA is insufficient to cover the cost of this study.

Section 615(4), page 137, Higher Education Coordinating Board

Section 615(4) requires the advisory committee on higher education created in E2SB 5441 (Comprehensive Education Study) to serve as a steering committee to direct the Board in the conduct of a higher education needs assessment and siting study for Snohomish, Skagit, and Island counties. Under current statute, the Board has authority to conduct these assessments. I am directing the Board to consult with the advisory committee created in E2SB 5441 so that the advisory committee may consider the Board's findings and recommendations as it considers the higher education needs of the entire state.

Section 643, page 147, lines 4 - 7, Washington State University

This proviso establishes a contingency for the allotment of a reappropriation. This violates provisions of RCW 43.88.110(7) that provides for the continuation of project expenditures into the succeeding biennium when an allotment was approved in the previous biennium. This proviso conditions the allotment and thus is in conflict with the statute.

Section 714, page 172, lines 4-5, Western Washington University

These lines indicate potential large future costs for this project. I am vetoing these two lines to allow for additional discussion about the project's scope.

Section 909(5)(o), page 226, Community and Technical College System

Section 909(5)(o) gives Cascadia Community College the authority to use alternative financing for partial funding of the State Route 522 Access project. I am vetoing this capital project because it is funded in the transportation budget.

Section 909(7), page 227, University of Washington

Section 909(7) gives the University of Washington authority to use alternative financing for partial funding of the State Route 522 Access project. I am vetoing this capital project because it is funded in the transportation budget.

Section 923, page 233, Department of General Administration

Section 923 requires the Department of General Administration to obtain legislative approval before selling the Tacoma Rhodes facility. I am vetoing this proviso because decisions regarding Tacoma Rhodes are within the authority and responsibilities of the Department of General Administration as an executive agency responsible for housing state government and acquiring and disposing of property. This existing authority includes managing and making appropriate decisions on the future of facilities, based on sound business principles.

The proviso also requires the Department of General Administration to submit a business plan to the Legislature concerning whether the facility is surplus to the state's needs and whether other state agency tenants might be housed in the building. General Administration already planned to take these steps as part of its ongoing business analysis of the facility and will share the results of the analysis with the Legislature as those efforts unfold.

Section 931, page 240, Office of Financial Management

This section requires the Office of Financial Management to work with the Department of Social and Health Services and legislative fiscal committee staff to determine at what point closure or consolidation of juvenile rehabilitation facilities will be necessary. I am vetoing this proviso because no funding was provided to the Office of Financial Management to prepare and submit this study.

Section 932, pages 240-241, Department of Corrections

Section 932 requires the Department of Corrections to report to the Office of Financial Management and the fiscal committees of the Legislature on the feasibility and cost of closing the McNeil Island Corrections Center. I am vetoing this proviso because no funding was provided to the Department to prepare and submit this study.

With the exception of sections 143(2)(b); 143(2)(c); 160; 163; 219, lines 25 - 31; 425, lines 7-10; 426(1); 427(1); 438; 615(4); 643, lines 4 - 7; 714, lines 4 - 5 (page 172); 909(5)(o); 909(7); 923; 931; and 932 as specified above, Engrossed Senate Bill No. 6094 is approved."
